

## MILLENNIUM DEVELOPMENT GOALS

The United Nations, countries, churches, and other agencies throughout the world have committed themselves to the Millennium Development Goals (providing sufficient food, shelter, education, opportunity, etc.) by contributing .7% of their resources to the attainment of these goals both here in our communities and throughout the world.

The Episcopal Church as well as our local diocese have committed themselves in dedicating at least .7% of their resources to these goals. Our Presiding Bishop, Katharine Jefforts Schori has made these goals a hallmark of her work.

With all this in mind, Saint Paul is committed to directing .7% of its resources to the achievement of the Millennium Development Goals. Our annual operating budget is approximately \$200,000. Since 2004, the parish, through a variety of sources, has dedicated over \$40,000 (over and above our operating budget) to programs designed to help achieve the Millennium Development Goals This \$40,000 is in excess of 17% of our resources and does not include the time and talent contributions dedicated to these goals.
